Metal Cutting Solutions

specter.co.in

About Us

Specter is a Metal Cutting Solutions provider based at Rajkot (Gujarat) which is one of the most prominent manufacturing hubs on the industrial map of India catering to various industry segments across India and globally.

It was found in the year 2018 by Mr. Kaivalya Solanki and Mr. Karan Solanki, both budding entrepreneurs with a passion for excellence. We specialise in providing high precision metal cutting solutions across industry segments through cutting-edge technologies. Our diverse inhouse capabilities allow complete versatility to manufacture intricate, high precision components and complete assembly with relentless focus on quality and accuracy.

Our services also include product engineering, prototype development and machining capabilities for high precision industry segments such as Aerospace, Electronics, Automobile and Heavy Engineering to name some of the prominent sunrise industry segments.

Our 25-member team comprises of highly skilled workforce and inspired engineers who are always eager to walk an extra mile when it comes to quality and timely delivery. We continuously improve process, performance, and quality of our products. We also try our best to adhere with the finest management practices amongst our team and with our associates thus we carry a pleasing & trustworthy reputation with our existing and esteemed client industries.

VISION

We aspire to be a metal cutting solution powerhouse by defining new paradigms of technological excellence and providing competitive solutions and reliability to our esteemed customers and bring inspiration and innovation to every employee in the organization.

MISSION

To provide cost-effective, value-added solutions using innovative engineering techniques with cutting-edge technology to meet the ever-changing needs of our customers.

To strengthen business relationship with our customers, suppliers and employees resulting in continuous success, growth, and prosperity of the organization.

OUR DNA

"Accuracy, Competency and Teamwork (ACT) lead to Extraordinary Outcomes" is more than just a tagline, it is the foundation we stand upon.

The guiding values and principles are sustained across our organisation by building an environment that integrates Empowerment, Empathy and Excellence in all our activities.

OUR GOAL

To be a team that is capable of generating great ideas that satisfy our customers and profitable for our stakeholders and consolidate our position as a leader and an organisation that collaborates for the sustainable development of the society.

Our Values to Produce Results

Customer Centric

Deliver WOW to our customers through our Solutions and Services.

Teamwork

We are one team. By sharing our skills, knowledge and experience we become one strong team.

Openminded and Creative

We believe in people. We build our workplace on mutual trust, respect, inclusiveness, and integrity.

Passionate and Determined

Entrepreneurial Spirit. The day we stop acting like entrepreneurs, we'll be just another fashion company.

Embrace Change

Embrace and drive change. We value diversity in people and ideas, Build open & honest relationships with clear communication.

Growth

Constant Improvement. Pursue growth and learning. We're extremely proud of what we have accomplished, but we are still far from perfect.

Cost-Conscious

Being cost-conscious is about making smart, sustainable choices even in the small, everyday activities.

Our Machining Facilities

We have indigenously developed world-class production facilities. Our production area is fully equipped with 9 metal cutting CNC machines Turning Centre and Vertical Machining Centre. With enough space for each machine, more than adequate ventilation has made our production floor an ideal workplace for our technicians who finds comfort in doing their work.

Vertical Machining Centre

VMC 850 nvu

Equipped with 4th axis Rotary Table and Tailstock for Intricate Shapes

Make: Jyoti CNC Automation Limited, India

- Table Size - 1000 mm x 530 mm
- High Speed Spindle 10000 rpm with ceramic bearing for smoother finish and longer life span
- Rotary Table Diameter - 250 mm
- Pneumatic tailstock for longer job in 4th axis application

Turning Centre

DX 200

Make: Jyoti CNC Automation Limited, India

- Maximum Turning Diameter - 365 mm
- Maximum Turning Length - 500 mm
- Speed Spindle of up to 4000 rpm
- Roller Type LM Guideways to improve the load carrying capacity of the machine
- Bigger Spindle bar capacity for through bore application

Quality Standards

We are ISO 9001:2015 Certified company, which makes us most trustworthy and recognized, and our adherence to processes and systems shows our commitment to giving quality products and services within the prescribed norms and standards required by our customers.

All our machining components go through well-defined stage wise quality inspection processes to eliminate defects or deviations as per our standards of quality and precision. We believe in a zero-tolerance policy for acceptance of defects and deviations to ensure the best quality product is sent from our premises.
